Fall, 1935 Price List of Superior Glads

As has been stated in previous lists, perhaps not all the varieties listed here will be really superior varieties as some have been grown but one or two seasons and that length of time is insufficient to determine fully the merits of some Glads. However, I believe this to be as select a list of the newest varieties as any offered in this country.

While my planting of many varieties is comparatively large, there are others of which I have but limited stocks and early orders are advised. Some may be sold out before my catalogue is issued in January or early February.

Of my own introductions, Flaming Meteor is meeting with an especially favorable reception if I may judge by the letters being received. From present indications, there may not be enough bulbs to last through the season. Christabel continues to bring favorable comment and Serenade appears to be well liked. I plan to introduce one or two new varieties through my spring catalogue.

Some varieties listed have not been described in any of my catalogues but I intend to offer descriptions in the 1936 issue if stocks are not sold out previous to its publication. A number of the new ones have been quite outstanding.

Terms

On orders of \$5.00 or more, a cash discount of 10% may be deducted; 15% discount on orders over \$20.00. These discounts apply to cash orders and do not cover collections offered. Prices prepaid except on foreign shipments on large bulbs listed at less than \$5.00 per 100 on which 50c per 100 bulbs should be added to list prices.

Stock free from thrips, healthy, and true-to-name. Errors sometimes occur but in case of wrongly labeled varieties, I gladly replace with equal value another season. Shipments made in the spring or early December if requested and stock is ready. I hope to have stock dug at an earlier date than previously and be able to ship before cold weather sets in where it is requested that stock be sent in the fall.

Varieties starred may be purchased in 10 times the listed quantity at 8 times the listed price. Or one bulb may be purchased at one-eighth the price per 10 if the item will not total less than 10c. Five bulbs or bulblets at the 10 rate, 25 at the 100 rate, and 250 at the 1000 rate.
